

Barry Zalma Publications List

[*Caveat*: I have attempted to provide a complete list of publications. The list below is not a total list of all publications because I do not know of all publications having found in the past that some journals will publish articles submitted without advising the author of the publication. In addition many articles have been reprinted without providing me advice of the republication. I occasionally find articles on the internet where a website has republished articles I posted on my site. As extensive as this list is I cannot state that it is absolutely complete.]
